## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-19 are rejected under 35 U.S.C. 102(b) as being anticipated by Vaillancourt (5,591,138).

Vaillancourt discloses a protected needle assembly and method for using such assembly that teaches an inner tubular body (13), with a plunger (46) and needle (15) extending from the distal end of the inner tubular body (see figures 1-5), an outer tubular housing (17) concentric with and sized to fit around at least a portion of the inner tube (see figure 13), a spring (19), a recess (35) within an interior wall surface of the outer tubular housing (see figure 13), a latch (21), a cantilevered push stop (44) and an exterior trigger (46) that can be made out of plastic (see column 7, lines 63-66).
